1. Executive summary

1.1. Background

The agreement with New Energy and Industrial Technology Development Organization was entered into on 9 December 2010. This agreement concerns the purchase by NEDO of 4,000,000 AAUs. Until 31 December 2010 the Climate Account owned by the National Fund for Environmental Protection and Water Management acting as the National Operator of the Green Investment Scheme, was not credited with any funds under the above Purchase Agreement.

1.2. Summary of Purchase Agreement commitments

Under the Purchase Agreement commitments, the National Fund for Environmental Protection and Water Management (NFOŚiGW) will guarantee that the Proceeds will be disbursed on the Greening Programmes listed below:

1.2.1. Energy management in public service buildings.

1.2.2. Energy management in buildings of selected public sector entities.

Up to 5% of the proceeds may be assigned to covering the costs of implementing the Green Investment Scheme, including:

a) Technical assistance for eligible Beneficiaries in preparation and development of Greening Activities;

b) Marketing and promotion of Greening Programmes;

c) Management and administration of the Greening Plan and Greening Activities by the Selling Party or the Operator of the Green Investment Scheme;

d) Monitoring, verification, reporting and audits, including external auditors and reviewers.

The Agreement specifies the following deadlines for performance of commitments:

- publishing announcements on calls for proposals – by 9 February 2011;
- selection of Greening Activities – by 30 October 2011;
- disbursing 50% of the Proceeds – by 31 July 2012,
- deadline for completion of activities and spending 100% of the Proceeds – by 31 July 2013;
- deadline for activities’ monitoring – by 31 July 2013.

1.3. Calls for proposals

By 31 December 2010, no call for proposals as part of the above Greening Programmes was announced.

2. Performance of the call for proposals

Due to the entry into the agreement in December 2010, announcing a call for proposals in 2010 was not possible. The NFOŚiGW commenced preparations for the call for proposals taking into account the suggestions by the Ministry of the Environment according to which the first planned call would concern a programme with a 100% co-financing contribution to eligible costs. Therefore,
preparations have started for announcing a call for proposals as part of the greening programme “Energy management in buildings of selected public finance sector entities”.

3. **Description of the Greening Activities**

Due to the fact that no call for proposals was announced in 2010, it is not possible to present any information in this point.

4. **Financial performance of the activities**

Since no call for proposals was announced in 2010, it is not possible to present any information in this point.

5. **Greening Effects**

Since no call for proposals was announced in 2010, it is not possible to present any information in this point.

6. **Environmental compliance**

Since no call for proposals was announced in 2010, it is not possible to present any information in this point.

7. **Main Activities of the National Operator**

7.1. **Comment by the Operator on implementing the GIS**

The late entry into the agreement prevented the announcement of a call for proposals in 2010. The first call financed under this agreement will be announced in 2011 and will concern the Polish Academy of Sciences (and the research institutes that it has created), Polish cultural institutions and budget economy institutions.

It is not until legal regulations are revised that it will be possible to assign the Proceeds under this agreement to financing the tasks of state budget entities which are carried out in relation to modernisation of heating systems in buildings,
